

HARRISONBURG ELECTRIC COMMISSION
SCHEDULE 314
LARGE LIGHT & POWER

- I. **APPLICABILITY:** This Schedule is applicable to all general purposes of any Customer whose measured kw demand in a billing month is 30 kw but less than 100 kw.
- II. **CHARACTER OF SERVICE:** Service supplied shall be alternating current, single or three-phase, 60 cycles. Voltage supplied will be at the discretion of the Distributor and will be determined by the voltage available from distribution lines in the vicinity and/or other conditions. Maximum single phase service on this rate shall be 400 amperes, 240/120 volts. All services will be overhead services unless otherwise provided for.
- III. **MONTHLY RATE—314**
- a. Basic Customer Charge
Basic Customer Charge \$9.50 per billing month
 - b. Plus kwh Charge
First 3,000 kwh @ \$0.13500 per kwh = \$405.00
Excess over 3,000 kwh @ \$0.06450 per kwh
 - c. Plus Demand Charge
First 30 kw or less @ \$2.25 per kw = \$67.50
Additional kw @ \$5.90 per kw
 - d. Plus rkva Demand Charge
All rkva of Demand @ \$.15 per rkva
 - e. Fuel Adjustment: Each kilowatt-hour used is subject to adjustment for charges in fuel costs, provided such fuel costs are charged to the Distributor by its supplier.
 - f. Wholesale Power Adjustment: From time to time the Distributor may charge the Customer for additional wholesale power cost charged the Distributor by its supplier. The charge will be added to each kilowatt-hour purchased by the Customer.
 - g. Monthly minimum charge will be the demand charge as determined below.
- IV. **DETERMINATION OF KW DEMAND:** The kw of demand billed shall be the highest of:
- a. The highest average kw measured in any 30-minute interval during the current billing month, or
 - b. 90% of the highest kw of demand used for billing during the preceding eleven billing months, or
 - c. 30 kw
- V. **STANDBY AND RESALE SERVICE:** All electric service (other than emergency or standby service) used on the premises of Customer will be supplied exclusively by Distributor and the Customer will not directly or indirectly sell, sublet, assign, or otherwise dispose of the electric service or any part thereof. Standby and Breakdown service will be supplied only through negotiated contract. Where the Customer has installed emergency generating equipment, the Customer will install and maintain approved manual or automatic transfer switches so arranged that it is impossible to connect the Customer's generator directly or indirectly to the Distributor's system. Parallel and Relay service will not be permitted.
- VI. **BILLING AND PAYMENT:** All bills will be rendered monthly and are due when rendered. If not paid on or before the past due shown on the bill, a 5% delayed payment charge may be added. If payment of bill is received after past due date the delayed payment charge may be included in the next month's bill. Waiver of delayed payment charge can only be made by the Commission, and will be considered only upon written explanation of reason for the request.
- VII. **OTHER CHARGES:** Customers supplied under this schedule are subject to deposits, connection charges, fees, taxes, etc. as set forth in Schedule No. 11 of the Distributors Schedule of Rates and Charges.
- VIII. **SINGLE-POINT DELIVERY:** The above rates are based upon the supply of service through a single delivery and metering point and at a single voltage. Separate supply for the same Customer at other points of use or a different phase or voltage will be separately metered and billed.
- IX. **TERM OF CONTRACT:** The term of service under this Schedule shall be as mutually agreed upon but never less than one year.
- X. **RULE AND REGULATIONS:** Service under the above rate is subject to the Schedule of Rules and Regulations, as amended, of the Distributor, which constitute a part of these rates.
- XI. Schedule 14 Example (does not include applicable taxes or fuel adjustment)

5000 kwh; 40 kw; 20 rkva

Basic Customer Charge		\$9.50
3000 kwh *	\$0.13500	\$405.00
2000 kwh *	\$0.06450	\$129.00
Total 5000 kwh		\$543.50

40kw

30 kw *	\$2.25	\$67.50
10 kw *	\$5.90	\$59.00
Total 40 kw		\$126.50

20 rkva

20 rkva *	\$0.15	\$3.00
Total Charges		\$673.00
